

Allied In-Sight provide photographic coverage of events, conferences, in fact any activity in the Midlands area. The following gives an insight into the options available and associated costs.

Attend and shoot deal - £210 + mileage @ 40p/pm (first 20 miles included)

The above price includes attendance of your event anywhere in the Midlands for around 4 hours. We can work to your pre identified picture requirements plus we will cover the activities in our own renowned reportage style. We use the latest professional digital cameras and our photographers have more than 20 years experience to draw upon. Most shoots result in a resource of over 250 images from which to choose.

Prints available during or immediately after the event - from just £4 per guest

We can provide an additional operator dedicated to making prints available to your guests either during the event or immediately following the event. Each guest can take away a picture as a permanent reminder of the fun they had. These prints can contain a logo and caption.

With the event captured on camera you can choose how guests and yourself have access to select their favourite shots. On-line, on CD on DVD or as proof books or all four.

Preview options on-line - from just £40

For many customers the most convenient option for access to their image resource is our on-line galleries. Anyone with internet access has the instant ability to browse through the images and place orders for prints or high resolution files by e-mail. At minimal cost the images can be broken down into the significant events of the day making selection even easier. If desired computer CD's or home viewable DVD slide shows can be created and supplied in custom designed packaging.

If you are an events organiser we provide you with your own exclusive web address for your galleries so that access is restricted to your clients only. We provide an e-mail address eg: orders@yourname.allinsite.co.uk and print orders can be automatically forwarded to you so you can monitor your customers interest.

Complete package cost

For event management companies we provide a complete package An offer which includes a set of images for your own promotional use and custom designed packaging and web pages from **£299** per event, and **£249** for any additional events in the same month.

Additional services

We provide many additional photographic and presentation services for images you already have as well as those we shoot for you.
